New Bridge Across River North of Town

The settlers living east of Russian River in the section between Vichy Springs crossing and the Lake county road are to have an outlet at last after several years of striving. The bridge is to be constructed so that it may be removed as soon as high water comes. It will afford the ranchers of that section a chance to get their crops across, where before they had graet difficulty in fording the river.

This bridge is but a temporary structure, but may have to do for several years, until the settlers on that side agree on the site and rights of way for a permanent structure, either at the present site or at the Vichy Springs crossing.

Democrats Will Make Gains in Congress

The Republicans on the Toboggan

Pearson to Get Progressive Support

BY J. B. SANFORD

DILLON BEACH, Tomales, Cal., Oct. 20.—The democrats at national committee headqquarters are very much encouraged over the political outlook and are putting some pep into the fight and hope to make many gains in both houses of congress at the coming election. The present congress is already known as the worst congress that the nation has ever known. It has been an absolute failure and many members will not return. After twenty months of backing and filling, amending and reamending the tariff bill, a bill that meets with the entire satisfaction of the profiteers, has been passed and signed by the president. It is the highest tariff ever passed and will increase the already high cost of living about 25 per cent.

What Caused Rise of Progressives

The progressive Republican party sprang into existence on account of the excessive rates in the Payne-Aldrich tariff of 1909 which greatly increased the rates of the old Dingley bill. So the high rates in the present Fordney-McCumber bill maybe the means of causing another split in the Republican party and another death like struggle at the national convention in 1924. The progressives in the present congress are not at all satisfied and will make an effort to gain control of the party machinery. They will miss Hiram Johnson as he went in with the reactionaries and stood for high rates for the profiteers all along the line and bragged that California was the best protected state in the union. Heretofore, Johnson had been for lower rates, but this session he stood with the old gang, which is causing him some uneasiness.

Progressives For Pearson

California is a progressive state and there are some 150,000 progressives who voted for C. C. Moore in the primary who are making signs like they were going to vote for Pearson, the progressive Democrat anti-machine candidate. Pearson is a high grade man of great ability and has the endorsement of Woodrow Wilson, W. J. Bryan, Senators Underwood and Harrison, Cordell Hull, chairman of the Democratic national committee, and our own Senator James D. Phelan. Surely these men cannot be called "reactionary." At any rate, Pearson is going to get a splendid vote and may slip up on Hiram yet.

The Grand Old Profiteers

The Republican party is now in bad with the soldier boys. The Republicans certainly "double crossed" the soldiers to a fare-ye-well. The Republicans got up a "fake" bonus bill pretending to give the soldiers a bonus, but failed to make any provision for raising the money for such purpose and President Harding had to veto the bill and congress came very nearly passing it over his veto. At any rate the soldiers are sore as a boil and are threatening to vote the Democratic ticket. They claim that the profiteers got their bonus all right and with quick and proper provisions for raising the mazuma too. But the soldiers do not rate as high as the profiteers and must wait till a Democratic congress does the square thing by them. Every one now in the army or who served in the army knows what G. O. P. means —Grand Old Profiteers.

William J. Pearson is getting into Northern California now and is making some impression among the farmers. He makes an ideal candidate and is anti-machine through thick and thin. Congress needs fewer lawyers and more business men. No one pays any attention to wind jammers any more, but the committees will listen to common sense talks from honest-to-goodness farmers who really know what they are talking about.

M. LaFranchi, a well-known resident of Hopland, was in town on jury duty the first of the week.

CHIROPRACTIC IS YOUR BEST FRIEND

R. S. BLEND, D. C.

Lack of Vital Force

If there is anything wrong with your head, lungs, heart, stomach, kidneys or any other part of the body, you can be sure that it is due to lack of Vital Force going to those organs due to a pressure upon the nerves where they leave the spinal cord. The Chiropractor, by means of Chiropractic Vertebral Adjustments, given with the bare hands alone, relieves this pressure and the Vital Force is thus permitted to flow uninterruptedly to these organs. The result is Health. Consultation and Spinal Analysis Free.

LOOK OUT! *The Lawyers Bill*
For Proposition 24 *Spells*
Vote "NO" *Lawyers' Fees.*

Make November 7
Purse Protection Day!

Build a wall of "NO" votes between your pocket book and—*A Law That Would Legislate You Into Lawyers' Offices to Pay Lawyers' Fees—The Lawyers Bill.*

Do you want a statute that *would make service a crime*, that would make a lawbreaker of the banker or business man who gives you some legal service or legal advice for *nothing?*

The Lawyers Bill would make it "illegal FOR ANY PERSON not a licensed attorney to make it a practice to furnish legal advice or service"

The Lawyers Bill is legislation by lawyers for lawyers. It was passed by a legislature one-third made up of lawyers. It is part of a national campaign for laws to compel a greater patronage of lawyers. It would create a monopoly for lawyers.

If you do not want to meet, in the shape of fees, the cost of this lawyers' monopoly—

NOTICE

To the voters of Long Valley Township. In the election for County officers in 1918 I had for my opponent for Justic of the Peace, J. W. Woodruff. He is also my opponent at the coming election in November. After the officers had taken their offices in 1919 to show him that I had no hard feelings and was still his friend, I wrote to our newly elected Coroner, R. L. Cleveland and requested his to appoint Mr. Woodruff Deputy Coroner for Long Valley Township, the notice below will show that he granted my request.

This is to certify that I appointed J. W. Woodruff as Deputy Coroner for Long Valley Township at the request of Geo. E. Furniss, Justice of the Peace of said Township.

R. L. CLEVELAND,
Coroner of Mendocino County.
Ukiah, September 13th, 1922.

I have tried to do what was right and just since elected to the Office of Justice of the Peace. As I cannot personally interview the voters I take this means of giving you this information. Your support November 7th will be thankfully appreciated by GEO. E. FURNISS, Incumbent. Adv.

California in Pawn!

That's what the proposed additional $500,000,000 bonded debt would do

ON the ballot at the election November 7th will be a proposed initiative amendment to the State constitution miscalled the water and power "act." This act provides: [1] For the creation of a new, appointive commission, to be named the water and power board, with authority to issue bonds of the State of California to the amount of half a billion dollars, and to invest the money virtually without restriction in water and power projects, yet unspecified, and in any incidental business: [2] That the board may hire such employes as it desires and fix their pay, without regard to the civil service. [3] That the board may also fix its own rates and, under the loose language of the act, it will be possible for the board to give preferential rates to favored communities. [4] That, in the event that the ventures in which the money is invested prove unprofitable the losses are to be made up out of taxes. Or bonds may be issued to pay expenses of operation or maintenance or interest on prior issues, thus pyramiding the state's debt. The act is an unlimited deficiency bill.

CALIFORNIA now has a bond debt exceeding that of any state except New York and Massachusetts. Should the additional 500 millions be issued the bond debt of California will amount to more than forty per cent of the aggregate bond debt of all the states of the Union.

In 1921, California paid in national, state and local taxes in excess of a million dollars a day. Her tax bill exceeded by four million dollars the gross value of all her crops; and California is an agricultural state.

CALIFORNIA CANNOT STAND THE DRAIN

Our prosperity cannot long stand such a drain. Taxes are a drag on every form of industry. And everybody pays taxes, if not directly, at least in his rent, his grocery bill, his light and water bills.

It is nonsense to say, as promoters of the act do, that there will be no increase of taxes because the ventures in which the money will be invested will pay for themselves. Who guarantees that these speculations will pay for themselves? The act makes ample provision for payment by taxpayers if the ventures result in losses instead of profits.

Nor is there any necessity or demand for such a speculation with the taxpayers' money. We have in California an abundance of power, cheaper than anywhere else in the country, served by private companies whose rates, financing and service are strictly regulated by public officials under the public utilities law. We now have the benefits of public ownership without its liabilities.

Adoption of the act would put all industry and every community in California under the heel of a political board with power to build up an impregnable political machine. It would impede the industrial growth of the State.

TAKE A LESSON FROM NORTH DAKOTA

You have not forgotten that in 1917 the Non-Partisan League, a name under which socialists masquerade, put the state of North Dakota into the wheat and flour business and into incidental banking and merchandising businesses.

Yet in three years the Non-Partisan League experiments with government in business had brought the state to a condition of economic prostration. Taxes trebled. It is a dismal story of incompetence and dishonesty. Then the people of North Dakota recalled the Non-Partisan administration; but the harm had been done.

TIME TO RING THE ALARM

The Non-Partisan League made the same confident promises in North Dakota that promoters of the water and power act are now making in California.

In January of this year the Non-Partisan League organized a California branch and set out to win political control of California.

The official bulletin of the League published in Berkeley announces that the Water and Power Act is one of the main provisions of the League's working program.

It is time to ring the alarm. It is time for every citizen interested in the welfare of California to take notice. Do not let the Non-Partisan Leaguers and their allied visionaries do to California what was done to North Dakota. People in North Dakota did not believe such a thing could happen, until it did happen. Take warning by their experience.

Vote against amendment number 19 on your ballot and save California.
